- **Don't write your name in any portion of the answer script.**

C. SCANNING OF HAND WRITTEN ANSWER SCRIPT &/OR CREATION OF PDF FROM WORD/JPEG DOCUMENTS

I. **Creation of pdf from hand written answer script - in mobile phone**

After completion of writings in the answer script you have to convert it into pdf. Steps for creation of pdf using Adobe Scan are discussed here. You may use any other pdf scanner apps available in the Play Store. More or less procedures are same for all types of pdf scanners.

Step 1: Download Adobe Scan from Play store and install it in your android.

Step 2: Place your answer script on the solid surface. Make sure the colour of the surface is contrasting from the paper colour.

Step 3: Open the app and focus it on your answer script.

Step 4: App will automatically look for the document and makes a boundary. Set the boundary as per your requirement.

Step 5: Keep the phone steady and press the round button for photo capturing.

Step 6: Adjust the border and rotate the page, if required and press continue.

Step 7: Repeat the process for all other pages.

Step 8: After the scanning rename the file as **University roll number-Subject**.
